ELECTRONIC DIGITAL LOCK

CEL3·in·1

WHEN CONVENIENCE MEETS SECURITY

CODE NFC CARD DOUBLE AUTHORISATION MODE

Fire Rated

LEVERSET

MORTICE

DEAD BOLT

CODE

0 to 9 digital touch pad allows for 25 unique user pin codes

NFC*

NFC connectivity allows most Android smartphone users to hold the digital keys to their home (iPhone use RFID sticker)

CARD

RFID reader allows for 25 user cards

DOUBLE AUTHORISATION MODE

Available with cards and code provides an extra layer of security.

The Carbine CEL 3 in 1 Touchscreen Locks are a digital lock offered in leverset, deadbolt and mortice variants. With Double Authorisation Mode available with cards and code provides an extra layer of security. It provides a keyless locking solution that allows you to give your children, tradesmen or cleaners easy secure access to your home, for when you are not there.

*** We recommend checking your smartphone before purchasing or installing.**
If your phone is not compatible we suggest using the RFID sticker on the back of your phone.

- Fits in standard 54 mm lockset or deadbolt hole, no additional drilling required (Mortice not included)
- Fire Rated (1 hour fire rating on e-core fire doors)
- Single-use user code which can only be used once to unlock the lockset
- Guiding code. A set of random codes to be entered prior to any user code to prevent code probing
- Auto-lock or auto-lock delay timer (auto-lock off by default. Time range 10-99 seconds)
- Volume control to turn on/off door lock operation volume
- Requires 4 AA batteries. The lock also has a low battery warning so you know when to replace the batteries. Also includes the backup option of a physical key
- Compact, stylish touch keypad with backlight. Dimensions: 155mm H x 75mm W
- Double authorisation mode available with card & code. RFID card or label entry, also compatible with all common travel cards Access codes (4-8 digits), RFID cards & phones are programmed through the lock
- 1 programming code, 25 user codes and 25 RFID cards/stickers
- Vacation mode: lock out all users
- Suits door thicknesses of 35mm to 51mm
- Mortice version available to suit standard backset mortice locks. Mortice model only suitable for doors with jamb overlap of 16mm or less
- Leverset model has 60-70mm adjustable latch. Due to the nature of this lock mechanism, 127mm latch is not available.

RFID Stickers, RFID Key Fob & Wristbands
